Outdoor Furniture Catalogue**

The Legacy

Australia's premier importer and wholesaler of high-performance commercial furniture, dedicated to the hospitality, gaming, outdoor, and office sectors.

Our comprehensive service offering manages the entire lifecycle of a piece—from sourcing and manufacturing to seamless global logistics. This holistic approach to supply chain management ensures that every item in our inventory meets the industry standard.

Our unique business model is that we believe that luxury is found in the intersection of exceptional quality and logistical intelligence.

Driven by a vision to remain the definitive market leader, we place priority on research, development, and unwavering supplier loyalty. Our team curates the latest global design trends to expand our specialized ranges:

Bespoke Hospitality: *A sophisticated suite of chairs, stools, and precision-crafted table tops in coffee, dining and dry-bar heights.*

Elite Gaming: *Masterfully engineered stools designed for the comfort, perfect for the modern luxury casino floor.*

The Outdoor Selection: *Weather-resistant chairs, stools, and high-performance table bases with surfaces that bring refined luxury to a vast range of environments.*

The Executive Office: *A complete foundation for professional success, featuring occasional seating and a versatile selection of architectural table frames and surfaces.*

Signature Upholstery

Elevate your selections through our Bespoke Upholstery service, designed to harmonize perfectly with your project's unique aesthetic and rigorous durability requirements. We offer an elite curation of commercial-grade textiles, luxurious fabrics, and high-performance vinyls, ensuring each piece is a reflection of your vision while effortlessly enduring the demands of high-traffic environments.

From vibrant, statement-making palettes to sophisticated, premium textures, our upholstery solutions are timeless, upholding longevity. Whether tailoring a signature chair for the Hospitality range or a fleet of Gaming stools, we provide the tactile finishing touches that define a truly luxury space.

Architectural Coatings

Achieve a luxurious aesthetic with our Advanced Powder Coating, designed to integrate your furniture selections perfectly into any high-end design palette. We utilize the prestigious Dulux Architectural Range, offering an expansive spectrum of finishes that allow for flawless tonal harmony across your interior and exterior landscapes.

Our technical coating process does more than just apply color; it can create a high-performance shield for metal surfaces. These durable, high-quality finishes are engineered to resist weather conditions, ensuring your pieces maintain their visual integrity in both Indoor and Outdoor environments.

Pristine Assembly and Logistics

We understand that true luxury lies in the details of execution. Our specialized technical team provides a meticulous assembly service, handling each piece with the care that premium furniture demands. Beyond standard assembly, we offer modification services, including precision timber staining/ painting and custom height adjustments (cutdowns), allowing you to tailor our Hospitality, Office, and Outdoor ranges to the exact architectural specifications of your space.

To ensure a flawless transition from our workshop to your interior, we provide seamless freight solutions. Whether you require delivery directly to your site or a coordinated collection from our warehouse, your inventory arrives expertly commissioned and ready for immediate installation. By entrusting us with the technical finishing of your wholesale commercial furniture, you reclaim the luxury of time. Our professional assembly and customization services eliminate the complexities of on-site setup, empowering you to deliver a finished project that is as effortless as it is exquisite.

Indent Sourcing

For landmark developments and large-scale visions that require a distinct signature, our Indent Buying service offers a gateway to unparalleled flexibility and global manufacturing excellence. We provide our partners with direct factory access, facilitating the obtainment of high-volume orders with bespoke specifications that are custom-manufactured to meet your unique requirements.

By leveraging our longstanding international relationships, the indent model grants you early access to an extended portfolio of exclusive styles and avant-garde finishes that are not yet available in the standard market. This proactive approach ensures you secure premier wholesale rates while maintaining total control over the customization process.

Our specialized logistics team provides comprehensive oversight of Lead Times, meticulously managing the journey from the factory floor to your site. This ensures that even the most complex, high-volume orders arrive with precision timing, allowing you to execute your grand-scale project with complete confidence.

Trump

The Trump Gaming Range is defined by its commanding, club-style design, created specifically for high-stakes VIP lounges and premium gaming environments. Unlike standard stools, the Trump offers a fully enclosed, deep-bucket seat that provides a sense of privacy and comfort for the user. Its pedestal base is crafted from heavy-gauge stainless steel to prevent tipping and ensure rock-solid stability during long-duration play. Available in a high-sheen Mirror Gold or a sophisticated Matt Black, this range uses a high-performance swivel-return mechanism and reinforced footring to deliver a smooth, 360-degree experience that matches the high-end atmosphere of a world-class casino.

Luxor

The Luxor Gaming Range is defined by its distinctive Art Deco-inspired aesthetic, featuring a fan-sculpted backrest that brings a sense of high-end theatricality to any gaming floor. The Luxor offers a structured yet open-sided design, providing players with greater freedom of movement without compromising on the plush, ergonomic support required for extended play. Engineered for the most demanding commercial environments, the collection is available in two robust configurations: a heavy-duty pedestal swivel base and a fixed architectural 4-leg frame. Finished in a premium suite of metallic options—including mirror-polished Gold, Stainless Steel, and classic Black—the Luxor range combines sophisticated visual flair with the uncompromising structural integrity necessary for a 24/7 casino setting.

Cairo

The Cairo Gaming Range is defined by its clean, contemporary lines and a distinctively sculpted backrest that balances geometric precision with ergonomic comfort. This range is designed to offer a more “open” seating experience, making it ideal for gaming floors where visual clarity and ease of access are essential. The collection is engineered for extreme durability, featuring a heavy-duty stainless steel base available in both a robust pedestal swivel and a stable 4-leg frame. Finished in professional-grade Mirror Gold or Matt Black, the Cairo stool provides a sleek, alternative for modern gaming lounges that require a high-end feel without the bulk of a traditional casino armchair.

Lisboa Bases

The Lisboa table base collection is the ultimate heavy-duty solution for high-traffic indoor hospitality environments, offering unparalleled stability and a clean, industrial aesthetic. Engineered from robust mild steel and finished in a resilient powder coat, this range is specifically designed to support substantial table tops, with a load capacity of up to 50kg. The collection features a variety of configurations to suit any floor plan, including the classic four-star bases for square or round tops. With its minimalist profile and reinforced structure, the Lisboa series provides a dependable, professional foundation for busy restaurants, pubs, and bistros where durability and functional design are the top priorities.

Accra Base

Accra Bases

The Accra Table Base Range is a staple of heavy-duty reliability, specifically engineered for high-traffic commercial environments that demand unwavering stability. Crafted from premium cast iron and finished in a resilient sandblasted black powder coat, the Accra series is designed to withstand the rigours of both indoor and outdoor settings. The range features a versatile four-point "star" base for standard dining tables and a robust twin-pedestal configuration for larger surfaces, providing a grounded, architectural foundation that effectively supports heavy tops. With its timeless industrial profile and a heavy duty build, the Accra range offers a dependable, low-maintenance solution for venues that require long-term structural integrity and a classic, professional aesthetic.

Pisa and Paris Bases

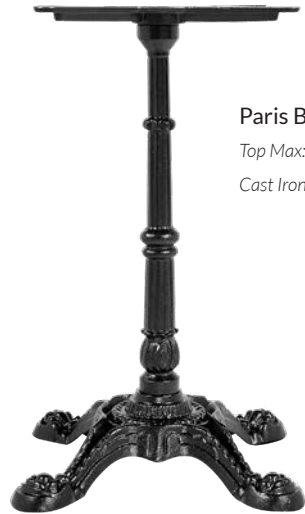

The Paris and Pisa Table Bases offer two distinct solutions for commercial dining and interior design, ranging from classical European charm to modern industrial minimalism. The Paris is a staple of timeless bistro design, crafted from heavy-duty cast iron with an ornate, decorative profile that provides a rock-solid foundation for vintage or traditional aesthetics. In contrast, the Pisa series delivers a clean, streamlined silhouette for contemporary interiors, featuring a slim, high-tensile column and a low-profile base that maximizes legroom. Whether specified in the decorative cast iron of the Paris or the professional-grade powder-coated steel of the Pisa, both ranges are engineered for the extreme rigours of high-traffic hospitality environments, ensuring long-term structural integrity regardless of the design direction.

Manhattan Folding Frame

The Manhattan Folding Table Range is the ultimate solution for dynamic environments that require seamless transitions between active use and compact storage. Engineered with a high-grade steel and aluminium frame, this collection features a precision one-motion folding mechanism and heavy-duty lockable castors for effortless mobility and stability. Available in various widths, including 1200mm and 1500mm, the range is designed to support substantial top loads up to 75kg, making it perfect for training rooms, educational facilities, and flexible corporate workspaces. With its sleek black finish and a design that allows for efficient nesting when not in use, the Manhattan Folding range provides a professional, high-performance foundation for any modern collaborative space.

A Frame

The A Frame Table Range delivers a bold, industrial statement with a focus on structural strength and large-scale functionality. Crafted from high-grade mild steel and finished in a durable Matt Black, these frames feature a signature trestle-style "A" design that ensures maximum stability for heavy-traffic commercial environments. The collection offers exceptional versatility with three height options and multiple widths ranging from 1200mm to 2100mm, allowing for a consistent design aesthetic across various zones of a venue. With the added option of heavy-duty castors for mobile flexibility, the A Frame range is the foundation for dining, collaborative workspaces, and open-plan hospitality fit-outs.

Barbados Sun Lounge

The Barbados sun lounge is the ultimate choice for poolside luxury, expertly crafted by Nardi Italy to deliver both style and exceptional durability. Featuring a high-quality polypropylene frame and a breathable fabric insert, this lounge is designed to provide maximum comfort while standing up to the harsh Australian sun and chlorinated environments. The ergonomic design includes a backrest that reclines into four different positions, allowing guests to find their perfect angle for relaxation, while integrated wheels at the back and non-slip feet ensure easy mobility and stability. Fully stackable for efficient storage, the Barbados sun lounge is a practical and sophisticated seating solution for resort pool decks, hotels, and premium residential outdoor spaces.

Moon and Crossa Bases

The Moon and Congo table base series offer a versatile and robust foundation for any commercial dining or bar setting. The Moon base features a sleek, circular disc design that provides a clean, modern aesthetic, while the Congo base utilises a classic four-star cross profile for a more traditional architectural look. Both ranges are available in standard dining heights and elevated drybar versions, ensuring a cohesive design language throughout a venue's various seating zones. Crafted from high-quality galvanised cast iron and finished in a durable powder coat, these bases are engineered to support heavy table tops while resisting the elements in both indoor and outdoor environments.

Apollo and Crossa Bases

The Apollo and Crossa table base collections bring a refined, lightweight aesthetic to modern hospitality environments without compromising on structural integrity. The Apollo base is distinguished by its elegant design, offering a contemporary and sculptural feel, while the Crossa base features a clean, four-star architectural profile for maximum stability. Both ranges are manufactured from high-grade aluminium, making them exceptionally easy to manoeuvre and naturally resistant to corrosion in harsh outdoor conditions. With their sleek silhouettes and commercial-grade durability, the Apollo and Crossa series provide a stylish and practical foundation for a wide variety of outdoor table top configurations.

Nara Folding and Kobe Bases

The Kobe and Nara Folding table base series offer a streamlined, high-performance solution for flexible commercial dining and hospitality environments. The Kobe base provides a sleek, stable foundation with its classic four-star profile, while the Nara Folding base introduces a clever flip-top mechanism, allowing table tops to be tilted vertically for compact, nested storage at the end of a shift. Both ranges are constructed from lightweight yet heavy-duty aluminium and finished in a durable, UV-resistant powder coat, ensuring they remain rust-free and easy to manoeuvre in alfresco settings. Combining functional innovation with commercial-grade durability, the Kobe and Nara Folding collections are the perfect choice for busy venues requiring versatile, space-saving outdoor furniture.

Bologna and 2 Way

The Bologna table base collection brings a touch of classic European charm to modern commercial spaces, offering a sophisticated and ornate silhouette. Featuring a detailed, vintage-inspired frame with elegant curved legs, this range is ideal for creating a traditional bistro feel in cafés, wineries, or Parisian-style outdoor dining areas. The collection includes the standard four-star base for square or round tops, as well as the Bologna 2 Way trestle-style base, which is specifically designed to provide stable support for larger rectangular communal tables. With its blend of decorative flair and commercial-grade strength, the Bologna series is a perfect choice for venues seeking a refined, heritage-inspired aesthetic.

Picnic Tables 1.8m White

Picnic Tables

The Picnic table collection offers a timeless and communal outdoor seating solution, designed to bring people together in casual hospitality and public spaces. Expertly crafted from high-quality treated pine, these tables feature a classic A-frame structure with integrated bench seating, providing a sturdy and reliable setting for beer gardens, parklands, or school courtyards. Available in both 1.8m and 2.1m lengths, the range offers ample space for large groups while maintaining a clean, traditional aesthetic that blends naturally into any outdoor environment. Each piece is finished in a durable coating—available in a sophisticated Dark Walnut or a crisp, clean White—ensuring the timber is well-protected against the climate.

Picnic Tables 1.8m White

Cube

The Cube outdoor table collection offers a professional, linear aesthetic that integrates seamlessly into any modern hospitality or commercial setting. Featuring a high-quality aluminium frame paired with a durable polypropylene top, this range is specifically engineered to resist the harsh Australian sun and heavy daily use. Characterised by its clean, minimalist lines and matt finish, the Cube range is not only UV-resistant and weather-proof but also exceptionally low-maintenance. Whether placed in a sleek rooftop bar, a corporate terrace, or a busy poolside courtyard, these tables provide a stylish and sturdy foundation for any professional outdoor project.

Lumo Tops

The Lumo outdoor table tops bring a sleek, contemporary edge to any hospitality setting with their minimalist thin design and durable aluminium construction. These tops are specifically engineered to withstand the elements, featuring a high-quality powder-coated finish that is both UV-resistant and exceptionally easy to maintain. Characterised by their lightweight feel and modern architectural aesthetic, the Lumo collection is a perfect choice for rooftop bars, coastal cafés, and busy urban terraces.

Lumo 700mm Round Anthracite

Project Purchasing

1. Financial Advantage: Competitive Wholesale Rates

When a client uses indent ordering, they are essentially bypassing the “holding costs” of local stock.

Reduced Overhead: *The indent furniture goes from the factory (often in bulk containers) toward the project site with minimal time spent in an Australian warehouse, those savings are passed to the client.*

Price Locking: *It allows businesses to secure pricing at the time of the order, protecting their project budget against currency fluctuations or shipping cost spikes that might occur later.*

2. Design Flexibility: Styles, Finishes, and Customization

Stocked items are usually kept in “safe,” high-volume colors (like black, charcoal, or oak). Indent ordering opens the full catalogue.

Non-Stock Ranges: *Clients can access global designs that aren't physically held in Australia.*

Bespoke Details: *This is where the customization you often work with comes in—clients can specify particular custom upholstery (like Warwick fabrics or vinyls) directly at the factory level rather than retrofitting stock items locally.*

3. Logistical Precision: Lead Time Management

This is the most critical part for project managers. A restaurant or office can't open without chairs, but they also don't want 500 chairs arriving while the floors are still being polished.

Project Synchronization: *We acts as the buffer. You manage the 8–16 week manufacturing window to ensure the ETA aligns with the Handover date of the building.*

Direct-to-Site Logistics: *For very large orders, indenting allows for “container-direct” delivery, which reduces handling and the risk of damage during multiple trans-shipments.*

Disclaimer

Visual Representation: While every effort is made to ensure that the images and colors shown in this catalogue are as accurate as possible, actual product colors and textures may vary slightly due to photographic lighting, print processes, or individual monitor settings. We recommend requesting physical samples for precise color matching before finalising an order.

Availability: All products are subject to availability and may be discontinued or updated without prior notice. Delivery dates and lead times provided are estimates only and do not constitute a binding agreement.

Product Suitability: It is the responsibility of the purchaser to ensure that the selected products are suitable for their intended application and meet any specific regulatory or safety requirements for their project. We accept no liability for any loss or damage arising from the improper use or selection of our products.

The information contained in this catalogue is intended as a guide only to assist with product selection. While we strive for excellence, we make no representation or warranty as to the completeness or accuracy of the information provided.

All products, materials, and specifications are subject to change without notice. We disclaim all liability for such changes, as well as for any typographical, printing, or production errors. Please note that product colors and textures may vary from the images shown due to the limitations of print and digital displays.

All items are subject to availability and lead times may vary. Product specifications and suitability for specific project requirements should be confirmed with our team prior to ordering. We disclaim all warranties, express or implied, to the fullest extent permitted by law.
